Forbes' Top 2000 Global Companies Analysis

Which Countries are Predominant based on Industries in terms of Sales?

Industry: Airline

Data source: https://data.world/aroissues/forbes-global-2000-2008-2019/workspace/file?filename=Forbes+Global+2000+-+2012.csv

What are the Top Companies in a particular Industry in terms of sales?

Graph 1:

I chose world map to show what all countries are performing well in terms of sales in particular Industry that we select. I chose colour to show the difference in performance in sales across the countries.

Action: Filter from Graph 1 to Graph 2: Select a particular country in the map. It's going to filter all the companies that are being displayed in graph 2 based on selection.

Graph 2:

I chose simple bar graphs to show what companies are performing well based on the sales in that particular Industry. Higher the bars are , higher the sales are..Here we could see which companies are the top when it comes to sales.

Action2: When you select a company here, we can see the filter action in bottom 2 graphs. Bottom two graphs are goin got be updated based on the company you select in Graph 2:

Graph 3:

We want to know what all others are the company's Valuation for the company you select on graph 2. So I chose a simple Table graph to get all the details on various Kinds of Valuations for a company.

Graph 4:

A web page object to see more details about the company you select.

Action 3: Any company you select in Graph 2, you will see the web page changing
